

Position: Software Developer  
Reporting to: Business Manager  
Duty Station: Dar es Salaam

**Key Responsibilities:**

- Design, develop, test, and deploy features for the platform (Magento) and mobile applications (React Native).
- Collaborate with cross-functional teams to translate business requirements into technical solutions.
- Maintain and enhance existing systems to ensure scalability, stability, and performance.
- Integrate APIs, third-party systems, and payment gateways for seamless functionality.
- Troubleshoot, debug, and resolve issues in both web and mobile environments.
- Maintain clean, secure, and maintainable code using version control tools like GitHub and Bitbucket.
- Document development processes, configurations, and updates for ongoing reference.

**Qualifications & Experience:**

- Bachelor's Degree in Computer Science, Software Engineering, or a related field.
- Minimum of 3 years' experience in software development, preferably in E-Commerce or Marketplace platforms.
- Proven experience in Magento, React Native, PHP, and NodeJS development.
- Familiar with Jira, GitHub, Bitbucket, and Zendesk for project management, collaboration, and issue tracking.
- Strong problem-solving skills with attention to scalability, security, and performance.
- Ability to work collaboratively with designers, product managers, and other developers.
