Deadline: 31st October 2025

Only shortlisted candidates will be contacted.

RESPONSIBILITIES

- Assess and underwrite insurance applications for agricultural clients, including crops, livestock, and agri-business operations.
- Evaluate risk exposure, analyze farm data, weather patterns, pest/disease risk, and other relevant factors.
- Ensure compliance with underwriting manuals, reinsurance treaties, and regulatory requirements
- Determine appropriate premium rates, coverage limits, and policy terms.
- Support the development of new agricultural insurance products in line with market needs
- Collaborate with claims and sales team to manage portfolio performance
- Stay updated on agricultural trends and regulatory requirements.
