

## **JOB TITLE: Community Data Collector (CDC)-TANZANIA**

**Job no:** 498956

**Position type:** Temporary Part-Time

**Location:** English, Tanzania - Dar es Salam

**Division/Equivalent:** Tanzania

**School/Unit:** Research

**Categories:** Research

ICAP at Columbia University, a global health leader situated within the Columbia University Mailman School of Public Health in New York City, seeks highly qualified candidates to serve as Community Data Collector (CDC)-Tanzania for a multi-country research project on climate, extreme weather, mental health, well-being, violence, and localized early warning systems. The CDC will support high-quality, ethical, and safe community-based data collection and related field activities within the district to which they are assigned. The CDC will report directly to the **Field Supervisor** within the Anga Community Team.

The role is expected to run as from April 2026 subject to funding, ethics approvals, operational readiness, and satisfactory performance.

The position is contingent upon availability of grant funding. Columbia University is an equal opportunity and affirmative action employer. It does not discriminate against employees or applicants for employment on the basis of race, color, sex, gender, religion, creed, national and ethnic origin, age, citizenship, status as a perceived or actual victim of domestic violence, disability, marital status, sexual orientation, status as a Vietnam era or disabled veteran, or any other legally protected status.

**Application close:** Apr 17 2026 E. Africa Standard Time
