

Vacancy

INFORMATION SYSTEMS MANAGER

JOB SUMMARY:

This role leads the utilization of Information & Communication Technology (ICT) in the airline. This covers all the technology, systems, people and processes involved. It advises the senior management and board on opportunities for harnessing the benefits of applying ICT in the airline, while ensuring the operations of running the existing ICT is effective and efficient. It ensures that the airline keeps abreast of ICT developments in the airline industry and applies them as required. This must be done in all areas of the airline's network, and in collaboration with its partners and service providers in the airline industry

JOB QUALIFICATIONS:

- Bachelor's Degree in Information Technology or related field. Master's Degree in Information Technology would be an advantage
- Certified Information Security Manager
- Any IT Manager Certification
- Certification in Cyber Security
- Team player with high integrity
- At least 5 years working experience in ICT management. Similar time being part of a business management team will be an advantage
- Strong knowledge of airline communications technology and IATA system processes and standards.

Mode of Application:

Interested candidates should submit their application to pwrecruit@precisionairtz.com with the subject line "INFORMATION SYSTEMS MANAGER"

Deadline: 31st August 2026
